This year, the causal discovery workshop is held in conjunction with the 2022 International Conference on Knowledge Discovery and Data Mining (KDD 2022), 14-18 August, 2022, in Washington DC. The workshop has received 8 high-quality submissions. After a careful review process with each paper being reviewed by 4-5 experts, three papers have been selected for publishing in the *Proceedings of Machine Learning Research*, Volume 185, 2022 and presenting at CD 2022. The workshop features two keynote speeches by Dr Cheng Zhang from Microsoft Research Cambridge and Professor Razieh Nabi from Emory University.

Finally, we would like to thank you, the participants of the workshop and the readers of the proceedings. We hope you enjoy the workshop and the papers.

Program Committee

Kui Yu, *Hefei University of Techonology* Mandar Chaudhary *North Carolina State University*

Ha Tran, *University of South Australia* Samantha Kleinberg, *Stevens Institute of Technology*

Takashi Washio, *The Institute of Scientific and Industrial Research, Osaka University, Japan*

Tom Claassen *Radboud University*

Tsai-Ching Lu, *HRL Laboratories, USA*

Mingming Gong, *The University of Melbourne, Australia*

Wolfgang Mayer, *University of South Australia, Australia*

Ricardo Silva, *University College London*

Sisi Ma *University of Minnesota*

Shohei Shimizu, *The Institute of Scientific and Industrial Research (ISIR), Osaka University, Japan*

Weijia Zhang, *Southeast University*

Debo Cheng, *University of South Australia*

Daniel Malinsky, *Johns Hopkins University*

Andres Cifuentes, *University of South Australia*
